

**5 THINGS
YOU DIDN'T KNOW
YOUR SPOKANE
SCHOOL BOARD IS
DOING BEHIND
YOUR BACK.**

1. Removed resource officers and replaced them with an empty “restorative” policy.

Staff are not allowed to call police, except for a single designated employee - let's hope they aren't out sick.*

2. Has embraced indoctrination instead of education.

Staff are required to adhere to students gender confusion, and can't disclose this to parents without the child's consent. Declared that “anti-racist” curriculum would be implemented in Resolution 2020-11.**

3. Building medical facilities on campus without disclosure.

Students cannot take Tylenol without parent approval. Yet, entire medical facilities are being built on school grounds.***

4. Levies and bonds, both current and proposed bring in money without account.

42% of local taxes from Spokane County go to District 81 schools, yet, they have not, or will not disclose with any detail, how they (plan to) use the funds.****

5. District 81 is rated 25.5/100 for college readiness - Our school board is flunking.

Only 50% of high school students are proficient at reading, and only 16% are proficient at math.*****
